## ABOUT ME

I am a UX/UI designer based in Istanbul. My career journey began with French language education and evolved into the field of UX/UI design due to my deep interest in human behavior. I utilize the communication and empathy skills I built upon my background in teaching to create **humanity-centered and effective design** solutions. With my passion for crafting targeted designs, I bring a positive and collaborative approach to every project.

Usage

## WORK EXPERIENCE

### UX DESIGNER

Fibabanka (Feb 2024-Present)

At Fibabanka, our team was known as the "Design Office," and we collaborated with various stakeholders across multiple projects. As a junior UX designer, I assisted in articulating design solutions in conjunction with my senior colleagues. I also developed effective strategies by creating custom AI tools to address the design team's needs and enhance design iterations. My contributions included the design of the following initiatives:

- A digital loyalty program for our customers
- An intranet service aimed at enhancing employee productivity
- Card components within the design system of the mobile app

### IT & DATA SCIENCE HR TALENT EXPERIENCE INTERN

Fibabanka (Nov 2023-Jan 2024)

- Collaborated within a five-person HR team dedicated to supporting IT employees.
- Assisted coordination of team meetings and prepared presentations of critical weekly/monthly agenda.
- Conducted comprehensive field and literature research for unit managers during the department's Agile transformation.
- Designed an onboarding experience via Trello

### .PR8JECT. DESIGN INITIATIVE PROJECT

.pr8ject. (Oct 2022- Present)

- The primary objective of pr8ject was to create musical experiences for shop customers inside stores for a while. Then it changed to become more like a volunteer project.
- Redesigned an Istanbul Bilgi University Study Group Website called Hayvanat: Animal History Network
